

EXAMPLE PAGE

You May Modify This File As You Wish,
Or Use The Following Blank Forms.

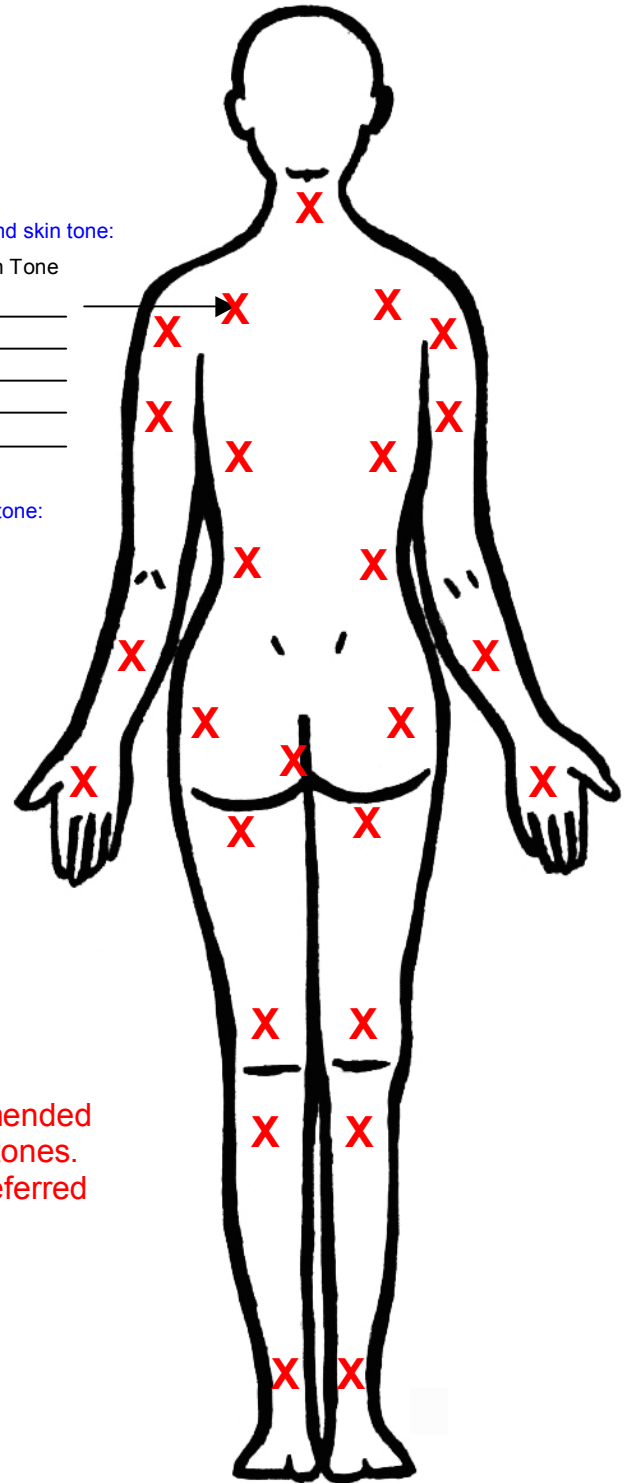

Use a table to record date and skin tone:

Date	Skin Tone

You may also just write in date – skin tone:

1/1/05 - 42
2/15/05 - 45
3/14/05 - 44
4/18/05 - 40
5/15/05 - 45

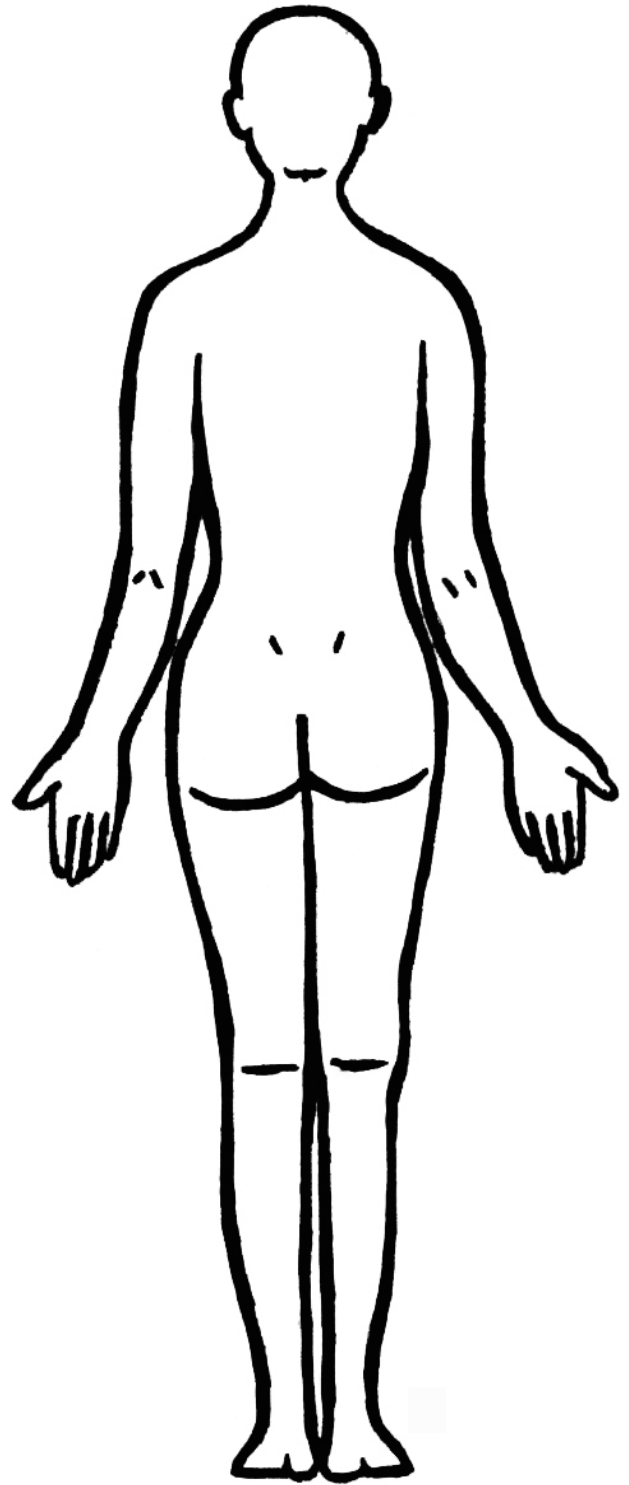

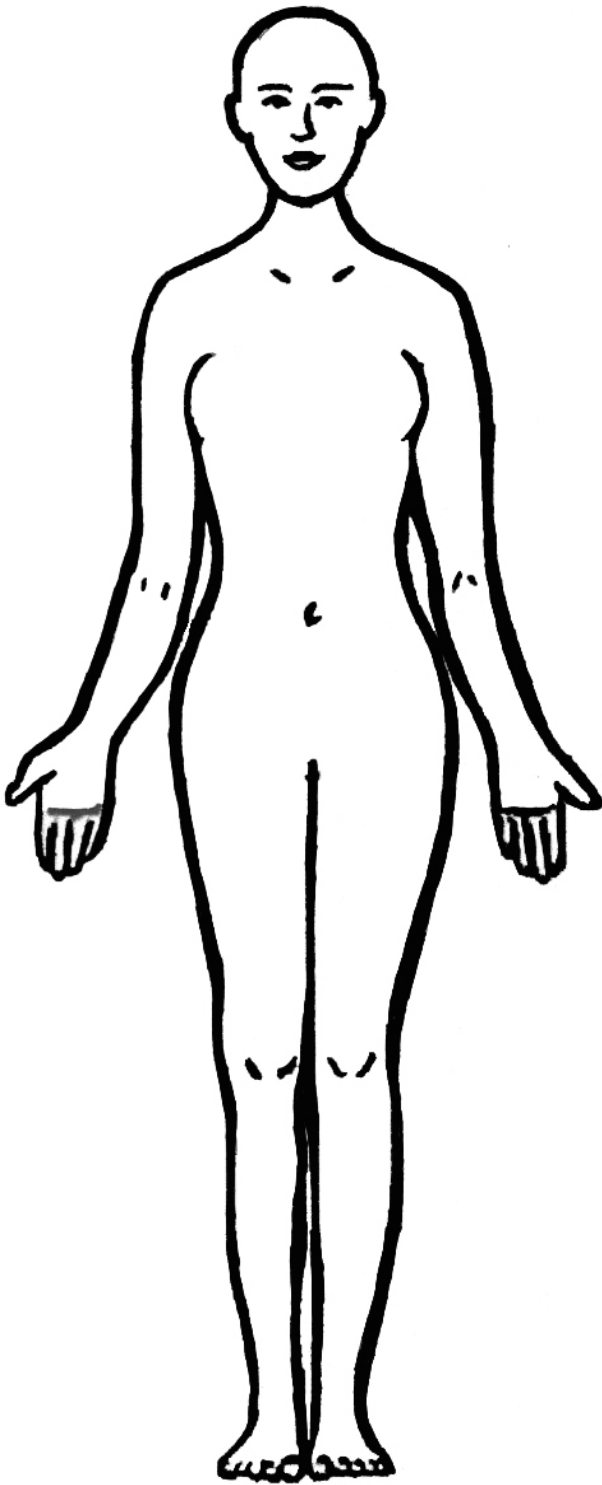

Red "X" marks the recommended areas for measuring skin tones. You may use your own preferred areas.

It is strongly recommended that you measure the skin tone in several different areas in order to obtain the most accurate readings, as skin tone may vary slightly from one area to the next. It is important to be consistent every time that you measure the skin tone – measure the same area each time.

Skin Tone Measurements

Patient Name: _____
